Major issues facing Norwell today:

Norwell is a well-run community. We are in good shape financially. I believe we need to find ways to increase revenue without increasing the tax burden on existing tax payers. I worked on the project to change Queen Anne's Corner from retail to combination retail and residential. This is something we need to continue to explore.

Our streets are very busy during certain hours of the day, working within legislative parameters we need to make our streets safe for pedestrians and those who drive on them.

I feel very strongly that we need to work as one community. We're stronger when we work together.

Why are you running

I am running for a position on the Board of Selectmen because this is my home town and it has given me 40+ years and I feel that I should return that commitment. I believe in reinforcing the values of being neighborly. We live in a new, modern, digital age, but we can still practice kindness... and it should start at the top with the Board of Selectmen.
